

Dr. Kaveh Moulaei received the M.Sc. degree in analytical chemistry from the University of Ahvaz, Iran, in 2011. In 2017 he joined the University of Messina, Italy, where he received the PhD degree in Engineering and Chemistry of Materials in 2021 under the supervision of prof. Giovanni Neri. He has been Visiting Scholar at the University of British Columbia, Vancouver, Canada and University of Antwerp, Belgium. His main research interests are on electroanalytical chemistry, electrocatalysis, nanochemistry, and gas sensors.
